

Data Science Project: Midsem Presentation

Project presentation for midsem will take place between 27/10/25 and 31/10/2025. You will be allotted specific day and time, where you will have 10 (7 + 3) minutes for both presentations and Q&A. Your presentation must cover the following aspects.

- 1) Explain your dataset (datapoints, features and labels if any) in 1 slide.
- 2) State and explain your problem statement, while highlighting its importance in 1 slide.
- 3) Show exploratory data analysis in 2 slides.
- 4) What are the preprocessing tasks, why and what are their effects?
- 5) Present hypothesis tests that align with (at least part of) your problem statement.
- 6) Experiments conducted to validate the hypothesis tests.

Please rename your slides files as “group_name” and one of your group member must submit it in the classroom by 1159 pm on 26/10/25.

All the best!
